

As an artist, Lydia has spent her life trying to record a bit God's handiwork as seen in the great and the small. Every day is an adventure in faith bringing insights all along the way in *moments* great and small, momentous and mundane. "Traced" through a lifetime of living, loving, and learning her stories reflect everything from simple, gentle observations to some singular experiences.

Each of these *Sketches on the Journey* begins with an amusing and/or inspiring quotation from folks as disparate in time and place as Confucius and Jada Pinkett Smith! The stories are followed by many verses from scripture to reinforce and reaffirm the subject matter of that particular piece; there are over 1000 in all. As a "final footnote" each sketch concludes with a color reproduction of one of her award-winning watercolors. There are almost 75 sketches that range from childhood experiences to present day events. But they are not so much *her* story as *His* story, a tale of what God has done in the life of one small woman.

This ebook is only \$10.00 and all royalties go to charity.

The first nine sketches can be viewed at the Amazon and Barnes & Noble links below:
